

Bulgari, two-colour vintage "Parentesi Tubogas" cuff

18ct yellow gold & stainless steel ; 57 g

Circa 1980's

A two-colour cuff bangle by Bulgari from the Parentesi Tubogas line. The supple body is formed of four parallel rows of stainless steel Tubogas — a flexible band built without soldering — opening at the front onto a pair of facing Parentesi motifs in 18ct yellow gold, the stepped geometric "bracket" form drawn from the travertine junctions of ancient Roman pavements. The open, sprung construction allows the cuff to adapt to most wrists. Total weight 57 g; designed for a wrist of approximately 17–18 cm.
